

Dalores - pp 2

Please find enclosed with this letter various and sundry "slice-of-life" stuff to help you understand what my life/work is like here right now. I'm sure you will understand.

Eddie-the-cat is a big win for me ... he is a great cat and we have become very ~~the~~ close. I don't know how I made it the last 10 months without him. I can't thank you enough for bringing him into my isolated life here at Hesper.

Also, my big (wall mounted) heater conked out last week and my studio is running on your small heater - glad I got it... and Dale & Peter were over (24 hours only) for the Laser conference (see enclosure) and I was playing Hafter's Fuck (my only CD... from you guys) and Dale's test coil discharge is on it!!
much love - Jim

Hanford Nuclear Sculpture Works Studio - w/ tumbleweeds - March, 1995
