Dear Alison,

Yes, of course I want to be your friend. In fact, I have always thought of you as my friend as well as my godsister. So what is this JOOS thing? Something like FACEBOOK or other?

I have to say that I am more then a little leery of turning over my email address to anything like a commercial venture who might sell it. I really work had to not get on the spam lists. So I didn't act on the JOOS thing but, believe me, I am your friend.

Drop me a line when you get a chance.

Your godbrother,

Jim
